

Bank Account Management System

Project Proposal Presentation

Presented by:

MD Hasan Sojib

Department of CSE, Uttara University

Project Overview

- A software system to manage bank accounts digitally
- Handles customer information and transactions
- Reduces manual work and human errors
- Designed for educational and small-scale use

Key Focus:

- Account management
- Transactions
- Balance Inquiry

Introduction

- Banking systems require accurate and secure data handling
- Manual banking processes are time-consuming and error-prone
- Digital systems improve efficiency and reliability
- This project simulates a basic real-world banking system

Motivation

- To reduce paperwork and manual record keeping
- To ensure faster and accurate transactions
- To learn real-life application of:
 - Database management
 - User authentication
 - CRUD operations
- To gain practical software development experience

Related Works / Existing Features

- Existing systems:
 - ATM systems
 - Online banking applications
- Common features:
 - Account creation
 - Deposit and withdrawal
 - Balance inquiry
 - Transaction history

Contribution / Difference

- Simple and user-friendly interface
- Role-based access (Admin & User)
- Focused on learning and demonstration
- Lightweight and easy to deploy
- Suitable for small institutions or academic use

Methodology

Development Steps:

1. Requirement analysis
2. System design
3. Implementation
4. Testing and validation

Proposed Technologies:

1. Frontend: React JS, Tailwind CSS
2. Backend: Node JS, Express JS
3. Database: MySQL

Flow Diagram

- User login
- Select banking operation
- Perform transaction
- Update database
- Display result

ER Diagram

Entities:

- User
- Account
- Transaction

Relationships:

- User owns Account
- Account records Transactions

Conclusion

- The system simplifies bank account management
- Improves efficiency and accuracy
- Provides hands-on experience in software development
- Can be extended with:
 - Mobile banking
 - Advanced security
 - Reporting features

Thank You
